

## ONE STOP FOR YOUR BUSINESS GROWTH AND CONNECTED ENVIRONMENT WITH NO ADDITIONAL COST!

We officially welcome fall and as the year draws to a close, we look forward to the last quarter and getting prepared for what 2020 will have in store for all of us. We are energized by the advances in technology, including connectivity, IoT, 5G, security and Cloud.

It has not been a surprise to anybody to hear about the new handset releases, the progress in 5G cities launches, the addition to more and more First Responder teams to FirstNet, the solid increase on connected IoT devices into the network, and not to forget the expansion of LTE-M roaming to

Canada to help propel all new ventures and exciting progress in technology. Our team is continuously teaming up with AT&T and our partners to bring customers the latest in technology, connectivity and security. Our top priority is to create and maintain a seamless experience for you and your clients across the **AT&T Mobility, Strategic Services, Applications and IoT Solution Portfolio**, therefore we work endlessly to ensure that the Customer Experience stays with AT&T through an effective lifecycle management.

Just Remember “**FSTG Will Help to Win the business!**”

### FSTG IS HELPING TO PAVE THE WAY IN HELTHCARE WITH THE INCLUSION OF FIRSTNET

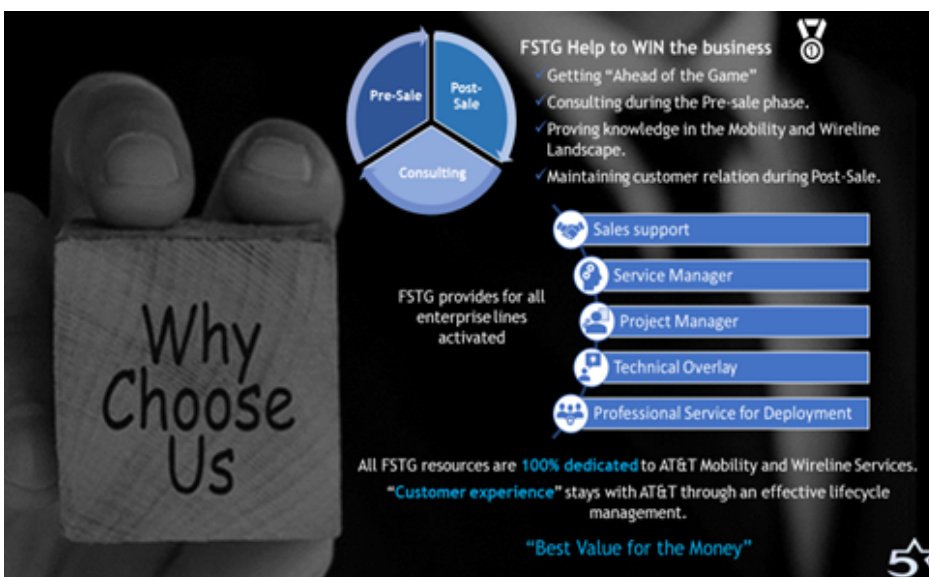

The **FSTG** team through the **FirstNet service**, has enabled nurses in the field with the deployment of **Sonim XP3 rug-ged flip devices with Enhanced Push-To-Talk (EPTT) communications**. Thanks to the FirstNet Dealer Program, within the AT&T Alliance Channel; our team was able to get involved from the inception of the opportunity till the close of the deal.

Moreover, and as it is not a surprise, most of the IT Organizations for Healthcare are drastically undermanned, therefore additional educated team members were on-site to support the deployment and provide educational services on how to operate the newly deployed devices.

“Best Value for the Money”

## Jim Byrne takes the stage at Channel Partner Evolution in Washington D.C.

On September 9th, 2019, Jim Byrne took the stage at Channel Partner Evolution in Washington D.C., discussing with Christina Cheng and a 5G panel including AT&T's Matt Palmer and Joseph Kenefic.

Five Star Technology Group is proud to echo Mo Katibeh's recent message on how 5G is about so much more than speed.
