

NEWSLETTER VOL. 3

November 2019

ONE STOP FOR YOUR BUSINESS GROWTH AND CONNECTED ENVIRONMENT WITH **NO ADDITIONAL COST!**

Dear customer,

At the beginning of this month we had the opportunity to participate along with AT&T Alliance Partners in the 2019 edition of FUSION in Dallas, TX.

It was refreshing to our team to connect with our partners and learn firsthand from Stacey Marx, Chris Penrose amongst other leaders from AT&T, the latest innovations that are available to you through AT&T Business Solutions; from **IoT, 5G and Edge to the latest on Cyber Security and SD-WAN** enabling digital transformation.

Our partner Samsung shared with us a key note from Brian Cho, VP B2B Strategy

and Operations, about significant areas that can help drive additional revenue growth for your organization and was discussed the 2020 endeavors to further drive solutions available to you.

As it is no surprise, AT&T delighted us with a couple of "special" events and among those were key notes from Pro-Football Hall of Fame legend, Terry Bradshaw and a Fireside Chat between Randall Stephenson and Dr. Condo-leezza Rice ...

With all the above, I want to close this edition with a key message from Fusion and let you know that: **"Together, the opportunity for growth is tremendous."**

SCORING BIG! **FSTG IS AWARDED AT&T'S 2020 -** **PLATINUM ELITE SOLUTION** **PROVIDER AT FUSION**

It has been only 3 years since **Five Star Technology Group** has been founded, nevertheless and in this short tenure, the FSTG team has been able to bring a wealth of value-add to customers across the mobility environment. From **Sales Consultancy** to the **life Cycle of account Management**; the FSTG team is proud to demonstrate this year that the secret of its success is due to the people and the value that is delivered every day. Today FSTG, has integrated **Wireline** and Security Consultancy Services and is prepared to provide you with edge-to-edge capabilities and more for your business.

AT&T invited Five Star Technology Group to take part in the 5G panel discussion at FUSION.

Rich Lawson represented Five Star Technology Group in the **5G panel discussion** at **AT&T Fusion** along with Christina Cheng, Joseph Kenefic and Matthew Palmer to discuss how this technology will change the very DNA of our user experience in a dramatic way.

5G is not another “G” and is not only about speed.

AT&T Cybersecurity Insights Report:

Security at the Speed of 5G

Preparing your business for 5G acceleration

Is your business prepared for 5G?

Security leaders understand **5G** is on the horizon—but are they prepared for the cybersecurity implications, including the new technologies, increases in network entry points, and explosion of IoT devices? 5G networks will ultimately bring large scale changes, such as the dramatic increase in the number of devices connecting to the network and the availability of massive bandwidth and ultra-low latency.

Are enterprises considering all the implications of these changes? Where might there be gaps in 5G security preparations?

Cellular IoT to hit five billion connections by 2025, with LTE/5G taking a quarter!

In Ericsson's [latest mobility report](#) is estimated that the number of cellular IoT connections will reach five billion by the end of 2025, from 1.3 billion by the end of 2019. Around a half will be NB-IoT and LTE-M connections, and around a quarter will be on LTE and 5G. Cellular IoT connections will increase at a compound annual rate of 25 per cent per year through to the end of 2025. NB-IoT and LTE-M (Cat-M) will account for 52% of cellular IoT connections by the end of period. Their number has spiraled three-fold in 2019 and will reach close to 100 million by the end of the year, said Ericsson...
